## A Reaction If the Alabama Court Decision Persisted Added to Explain.

## Appointment of Another Infidel Has to Offset Every-thing But Fourth-Class Postmasters.

WASHINGTON, D. C., Aug. 26.—[Special.]—The attention caused by the several offensive court decisions yesterday has been followed by something of a reaction. It is now said that Hungerford at the time of the nomination and of the most recent have a class of officers similar to that just discovered to be existing offices and assiduously recommended the continuance of such methods, and consulted that the town should receive such assistance as proved necessary. Another statement is to the effect that application was made to the Treasury concerning offices under section 3(?) for the temporary employment of a force to collect data to find to which Democratic Packers had taken exception, and that upon the completion of the list this was ordered. Efforts to the same end prepared with assistance from the Treasury Department, and that efforts to affect the charges which have been made, and there is now thought to be some truth for both as to the result of the agitation. There is a surprising fear that a further case in which such officers have displayed excessive zeal perhaps exists yet.

Post Commissioner Dickson left Washington this afternoon to spend a few days in New York. He said that no further steps would be taken in regard to the Court of Commissioners out of Alabama Claims until the return next week, he would have to explain to him that the decision of the court. Judge Harlan, the presiding Judge of the court, who is absent from the city, has been informed of the Government's action and is expected to act without a statement to appear to the matter.

### WORK OF THE CONVENTIONS.

LANSING, Mich., Aug. 26.—[Special.]—Judge Grant, in consequence from Cleveland's refusal to grant a pardon to Frank Hall, the murderer of Mrs. Hall, has appointed Thursday, Sept. 10, as the day for the execution of the sentence of death. Governor Jerome has been asked to interfere, but has declined to do so.

The Democratic Congressional Convention of the Fifth District met in Jackson this afternoon and nominated Hon. Edward Kelly, of Jackson, for Congress. Mr. Kelly was formerly a member of the Legislature, and was defeated for Congress two years ago by Mr. Burrows by a small majority. He is a strong man, and will make a good run this time.

The Democratic Congressional Convention of the Second District met in Kalamazoo

## FOR SILVER AND AGAINST.

Leaders of the Cleveland party out of work for the reason one have to battle in favor for 16 per cents, gauge ton, dollar silver to starve.

Reports from Minneapolis say flour is dull and prices have declined during the last week.

The Pennsylvania Democrats in session at Harrisburg nominated Conrad B. Day for State Treasurer.

Mr. JOHN BURNS, the English pet critic, who has been dangerously ill, was able to go out walking yesterday.

The Thirty-fourth General Assembly of Illinois cut the State directly $40,000 more than its respective predecessor.

SENATOR ALLEN declares that, while supporting the Populistic, he will continue his agitation regarding the governorship of Iowa.

The thirty-fourth annual meeting of the American Association for the Advancement of Science began at Ann Arbor, Mich., yesterday.

The Iowa State Republican Convention met yesterday at Des Moines and perfected a preliminary organization. It will get down to business this morning.

The Rev. Dr. FRANCIS W. PARKER, Chess and Parliament at Washington, will visit this country in September and make a two months' tour of the States.

A CONSIGNMENT of fruit fresh with ammonia smell has been discovered at St. Louis, and forged bills to the amount of over $500,000 were seized yesterday.

A DISPATCH says claims to have discovered a process by means of which the human soul can be made visible at the moment when the body ceases to function.

THE Cuban Islands episode has caused the Madrid papers to assume a martial tone, and it is feared that in the event of hostilities the Spanish navy would blockade all Europe's ports and cause immense commotion from the war.

SENATOR JOHN SHERMAN opened the Ohio campaign yesterday at Akron (Cleveland's speech was timed to drift great attention to a large assemblage of enthusiastic Republicans. An extended report of the Senator's remarks appears elsewhere in this issue.

AT a special meeting of the Society of Christ Church last night the resignation of the pastor, the Rev. George Edmunds, which was tendered some days ago, was accepted with "deep regret for the friendship which has brought about the severance of so close relations between him and the society."

THERE was a run yesterday on the Spring Garden Bank of Philadelphia, caused, so the President asserts, by the circulation of malicious rumors. Up to the close of business yesterday all checks had been met, and it was alleged that the bank was entirely solvent. The deposits aggregate over $1,000,000.

THE Chief of the Bureau of Statistics reports the total value of exports of bullion and gold, products for nine months ended June 30, 1896, at $61,720,000; duty products for three months ended June 30, 1896, $4,831,719. The total value of the exports of breadstuffs from the United States for the nine months ended June 30, 1896, was $93,000,000.

A BOY of 10 and a girl of 11 years ran away from Woodbury, Tenn., recently and were found living in a brush shanty near Blue Mountain Lake in the Adirondacks. They told their last heard about Prospect Cleveland stopping in the Adirondacks, and also read about a boy and girl running away and camping in the woods, and thought it would be capable to follow their example.

THE money market was dull yesterday, with exception to the city of a small demand. Sterling exchange was weak, with a declining tendency. The New York stock market was quiet, but showed fair confidence from Tuesday.—The Chicago produce market was very active, but irregular, quotations being strongly, with a bull movement, while wheat was depressed by sales of a foreign letters to the trade. Reports of bad crops have much count into it, for the time they could not be received sufficiently to show with have that there is no danger of such a thing and if the wheat were good for anything it must sell. An argument with Tuesday puts and sales about 10 cents higher, while it was [illegible]

[illegible] pronounced in the government of the country.

Senator Thurston is wise in insisting that Republican voters shall not be overconfident in this campaign. The Democratic machine will not be materially significant in their fighting on National affairs. In regards the Silver question in Ohio, Senator Sherman says that he is in favor of taxation and regulation and argues prohibition on the practicable in large places. He believes, however, that the issue is not and ought to be one of party politics. The people want to see in repealing the Constitution before the State can adopt a settled policy, but in the meantime the Republicans are pledged to endeavor a two-cent fare to the Democratic. With usual adherence to State matters, Senator Sherman has opened the Ohio campaign with a broad discussion of National issues and sounding well those matters to which he has given study.

### A BUSINESS FAMILIAR TUNE.

Grover Cleveland, who was nominated for the Ohio Democratic for Supreme Judge in the place of the late Judge Okey, but who later supported by Gov. Hoadly in 93 the capacity as to the head of the election, Grover is not merely a candidate for the office, but is already one of the Supreme Court Judges. Returning to his home in Norwalk immediately after the Democratic convention he made a speech at a celebration existing among his neighbors that he was already a Democrat and "under many obligations to the man who worked for his nomination." But almost with the declaration of consideration before the eyes of his audience and said: "If my friends here any cause on which they [illegible] [illegible] [illegible]

## RAILROADS.

**How the Southern Pacific Is Absorbing the California Fruit-Freight Line.**

**What the Illinois Central Will Do with Its Iowa Line's East-Bound Freight.**

**Gave Rosti Twice a Dance Counting Him with the Box Tech Until Rumors Arose.**

The article here quoted in the Central Pacific-Southern Pacific Company's contracts the Californian fruit-freight line almost completely with its natural outlet, as it controls a majority of the stock of the Central Pacific as well as both the Transcontinental and Pacific Coast associations which the Central Pacific stands and gives the individuals of the California freighter. In no instance has the aggressive and grasping policy of the Central Pacific been so fully demonstrated as in its dealings with the California fruit-freight lines. Time was when the Central Pacific, Union Pacific, Kansas Pacific, Transcontinental, and Atchison, Topeka & Santa Fe lines for the purpose of avoiding the delays to which they were subject at the hands of the Central Pacific, were compelled to run their freight through to San Francisco to find a market. Then, as now, all the leading fruit and vegetable men of the State, the Fruit Growers' Union, the Board of Trade, Chamber of Commerce, and Produce Exchange of San Francisco, had petitioned, and by almost the unanimous vote of the Board of Railroad Commissioners, the Central Pacific, Union Pacific, Kansas Pacific, Transcontinental, and Atchison, Topeka & Santa Fe lines were ordered to establish through rates and to receive freight through to San Francisco. In the hearing before the Board of Railroad Commissioners, the Central Pacific, Union Pacific, Kansas Pacific, Transcontinental, and Atchison, Topeka & Santa Fe lines were represented by their General Freight Agents, and by Mr. Stanford, President of the Central Pacific, and by Mr. Huntington, Vice-President of the Central Pacific, and by Mr. Crocker, Director of the Central Pacific, and by Mr. Colton, Counsel for the Central Pacific, and by Mr. Gould, President of the Texas Pacific, and by Mr. Strong, President of the Atchison, Topeka & Santa Fe, and by Mr. Thurber, President of the Transcontinental, and by Mr. Hopkins, President of the Southern Pacific, and by Mr. Huntington, President of the Southern Pacific, and by Mr. Crocker, Director of the Southern Pacific, and by Mr. Colton, Counsel for the Southern
